Experience

Software Engineer

OJ Solutions • Salford   03/2023 - 02/2024

- Collaborated with UI designers to develop modern applications, delivering seamless user experiences and visually stunning designs.
- Leveraged Next.js to architect robust solutions, demonstrating expertise in utilizing the framework's capabilities for high-quality applications.
- Utilized Node.js to develop efficient back-end services seamlessly integrated with front-end systems.
- Actively contributed to code reviews, maintaining exemplary code quality, testing, and adhering to industry best practices.
- Delivered UIs that not only looked great but also worked perfectly, playing a big part in the success of projects.
- Proactively stayed updated with the latest advancements in **Next.js, NestJS,** and front-end technologies, driving project innovation and efficiency.
- **Technologies**: Next.js, Nodejs, Nestjs, Typescript, ReduxTookit, Chakara UI, Heroku,

Remote React Engineer

Sloovi Saas Company • Karuna Conquest IT Park   05/2022 - 02/2023

- Reduced reported issues by **50% within the first month**, improving application stability and user satisfaction.
- Added features enabling users to manage reports, and track inbox emails, tasks, and calls, enhancing productivity.
- Optimized application performance, resulting in faster load times and a smoother user experience.
- Implemented a Design System using Storybook, ensuring code consistency and streamlined application upgrades.
- Developed dynamic and responsive UI components with React.js and TypeScript, utilizing testing tools like Jest and Playwright for quality assurance.
- **Technologies**: React.js, Typescript, Redux, Jest

Full Stack Software Engineer

Absolute Robotics • Ikeja, Lagos Nigeria   05/2021 - 03/2022

- Completed 70% of assigned tasks ahead of schedule while maintaining high-quality standards
- Automated the deployment process to AWS S3 using GitHub Actions, reducing errors and enhancing efficiency
- Implemented comprehensive testing strategies resulting in an 85% performance improvement and improved stability
- Developed reusable components, reducing future project development time by 20%
- Implemented code quality tools like Husky, ESLint, and Prettier, following the Airbnb React.js style guide
- Conducted code reviews, provided feedback, and enforced coding standards to maintain code quality
- Technologies : React.js, Next.js, Typescript, Redux, Node.js, Express.js, MongoDB, AWS

Remote React Engineer

Credo Social Payment • Boyle Str. Victoria Island, Lagos   04/2020 - 03/2021

- Identified and implemented performance optimizations in React.js applications
- Collaborated with UI designers to enhance user experience and interface design
- Utilized Redux Toolkit for state management in projects
- Conducted code reviews and provided feedback to improve development processes
- Integrated Axios for efficient data fetching and management in web applications

- Demonstrated expertise in Styled Components for styling React components
- **Technologies** : React.js, Redux, Styledcomponent, Redux Toolkit, Axios

FrontEnd Engineer

Carrotsuite ERP • Lekki, Lagos   08/2018 - 10/2019

- Documented all components, both new and old, to streamline the development process
- Built a stable, maintainable, and test-driven codebase
- Implemented a mobile-friendly approach to the application
- Developed and released reusable software that improved efficiency of all corporate departments by 25%
- Collaborated with the development team to brainstorm ideas and enhance user experience
- Utilized technologies such as React.js, Redux, ContextApi, and CSS

Education

Computer Science Education

Micheal Okpara University of Agriculture • Umuahia, Abia   09/2017

Studied and became conversational in computer science, and mathematics
